

EUROPE^{FOR} AVIATION

EUROCAE WG-72

Achievements & current and future activities

Christian Schleifer

Director Technical Programme, EUROCAE

EUROCAE WG-72

- WG-72 Focus
 - Primarily on information security for aircraft certification
 - Expanding to other interfacing areas of relevance
e.g. ATM, Supply Chain, Ops & Biz
- Membership
 - > 200 participants
 - Stakeholders from > 10 countries & several European/international organisations

EUROPE FOR AVIATION

Structure

WG-72 leadership

Chair: Cyrille Rosay (EASA)

Secretary: Clive Goodchild
(BAE Systems)

WG-72 SG 2

SG Chair:
Kristof Lamont
(EUROCONTROL)
SG Secretary:
Matt Shreeve (Helios)

ED-205

Industry Editor: Patrizia
Montefusco (Leonardo)

SG Chair:

Judicaël Gros-Désirs
(Airbus)

SG Secretary:
Frédérique Dauvillaire
(Thales)

ED-XXX

Industry Editor: TBD

ED-204A

Industry Editor:

WG-72 SG 4

SG Chair:
Peter Davis (UK CAA)
SG Secretary:
Andy Boff (Helios)

ED-201A

Industry Editor: Clive
Goodchild (BAE Systems)

Achievements

- ED-201 AISS Framework Guidance Document
- ED-202A/DO-326A Airworthiness Security Process Specification
- ED-203A/DO-356A Airworthiness Security Methods and Considerations
- ED-204/DO-355 Information Security Guidance for Continuing Airworthiness
- ER-013 Aeronautical System Security Glossary
- ER-017 International Aeronautical Information Security Mapping Summary

EUROPE FOR AVIATION

Achievements

EASA NPA 2019-01

- References to
 - ED-202A/DO-326A
 - ED-203A/DO-356A
 - ED-204/DO-355
- Terminology consistent with ER-013

Current activities

- ED-201A AISS Framework Guidance Document
- ED-204A/DO-355A Information Security Guide for Continuing Airworthiness
- ED-205 Process Specification for Security certification and declaration of ATM/ANS ground systems
- New ED-xxx Guidance on Security Event Management

EUROPE FOR AVIATION

Future activities

- Technical Work Programme
 - Developed based on joint EUROCAE-EASA stakeholder workshop
 - To be further developed to cover other aviation stakeholders and their needs
- Foreseen future activities
 - Vulnerability management
 - Incidence response and recovery management
 - Supply chain security
 - Forensic analyses and accident investigation
 - Maintenance security
 - Development & production security
 - Cybersecurity testing
 - Risk assessment methodology
 - Cyber resilience requirements
 - Other areas?

Coordination: ECSCG

- European Cybersecurity for Aviation Standards Coordination Group
- Objective:
 - Facilitate the sharing of work among the SDOs thus avoiding the risk of overlapping developments and identify gaps
 - Monitor all relevant processes, resource availability and other related risks and issues
 - Provide a forum to manage specific issues and resolution of conflicts
 - Advise the EC and other organisations on standardisation matters / issues
 - International coordination
- Deliverable: Standardisation Rolling Development Plan (RDP)

EUROCAE Training

- Cyber threats in aviation
- Current cyber security standards landscape
- ED-201 concepts and methods
- Cyber security auditing and certification
- Airworthiness standards
- Standards for securing operational technology
- Future developments

Next dates

- 11-12 June 2019
- 24-25 September 2019
- 10-11 December 2019

Thank you very much for your attention!

Christian Schleifer

Secretary General, EUROCAE

EUROPE^{FOR} AVIATION

Cyber Defence Exercises

Facing Reality in a Controlled Environment

Hannes Aparslan
Project Officer Aviation Cyber Security, European Defence Agency

EDA'S REINFORCED MISSION

In May 2017, after EDA's LONG TERM REVIEW,
Defence ministers agreed to reinforce the Agency's role and mission

- } as the **main instrument**

for intergovernmental capability planning & prioritisation
in Europe

- } as the **prime forum and coordinator**

for the whole lifecycle of capability development

- } as Member States' **central interface & gateway**

towards EU institutions & stakeholders

78 ✱ 39

3 Types of Cyber Defence Exercises

- **E1: EU CYBRID**

- EU Defence Ministers, EEAS, ENISA, EE MoD in cooperation with EDA during EE Council Presidency
- Simulated attack on the EU's military structures
- “various technical problems could quickly develop into questions requiring political guidance”

- **E2: CC SDM – Comprehensive Cyber Strategic Decision Maker Cyber Defence Exercise**

- Government level
- Involving decision-making bodies of a nation + private sector
- Separation into "standardised" teams, e.g. military & intelligence, justice, private sector

- **E3: Operational Cyber Defence Exercise**

- Military operational planners
- Multiple nations involved
- Complex military mission scenario in a cyber – contested environment

E1: EU CYBRID 2017 - CONCLUSIONS

- Cybrid made evident the **need to have political guidance for cyber incidents** due to the **strategical and political matter** of cyber security and defence at the **level of ministers**
- Cybrid achieved its goals in marking the **need to increase situational awareness**, examine **crisis response and guidance on strategic communication**
- Identified **need to establish common understanding of cyber threats** (e.g. armed attack or not), improve approach to **information consolidation and sharing**, EU-NATO and EU-NATO CCD COE **cooperation**
- Prove that **exercises at ministerial level are needed**, the format of EU Cybrid 2017 was **suitable and relevant** and **regular exercises** must be conducted

E2: CC SDM Exercises - EVOLUTION

3

5

- **Objectives**

- Improvement of the strategic decision-making exercises concept
- Raising awareness of participants
- Educate participants on current cyber threats
- Analyse challenges in decision making
- Incentivise the establishment of a national cyber decision-making exercise series

E2: CC SDM Exercise – STRUCTURE & CONCEPT

E2: CC SDM Exercise – FACTS & FIGURES

230

150

Active &
open
discussions

Detailed
reports to
Nations

- **Threat vectors used**

DDoS, Defacements

Malware

Ransomware

SCADA attacks

Critical Information Infrastructure
Protection

Supply Chain Security

Fake News & Information Warfare

Military Cyber Defence issues

E2: CC SDM Exercise – FEEDBACK & CONCLUSIONS

Low impact on

- personnel resources
- host nation resources for the organisation
- budget requirements

Exercises were

- authorized by & acknowledged as high priority events at national level
- involving leadership level of national governments

Participants were

- able to increase their awareness
- confronted with the importance of information sharing amongst authorities and key stakeholders

Exercise concept provides high flexibility to be adapted to national requirements

- Revision of national cyber defence response procedures should be investigated
- Requirement to have a high-level decision-making authority
- Demand for Strategies & Rules to enable information sharing within and outside of EU
- Strategic communications & regulations for the disclosure should be investigated
- Private and public sector react differently but cooperation was perceived positively
- “To pay or not to pay” a challenging question
- Regular repetitions of the exercise to identify improvements/developments recommended

E3: Operational Cyber Defence Exercise

120

5

17

Detailed
exercise
report

- **Objectives**

- Integrate cyber defence consideration in military operations planning process
- Training for comprehensive Crisis Management when facing cyber incidents
- Understanding of cyber effects created by adversaries from a defensive perspective
- Demonstration of the ability of military operational planners to analyse the cyber dimension of a Crisis Management Operation (CMO) scenario in depth, the precise nature of the operational problem and the solutions required to cope with cyber threats

Aviation?

Education

Training

Exercise

- Exercises are an appropriate measure to complement education and training
- Highly flexible exercise concept that can be used across several sectors
- Transport/Aviation sector explicitly mentioned in the NIS Directive
 - Operator of Essential Services → identification is national responsibility
 - Exercise essential to test and improve Business Continuity
- Training concept incorporates integration of multiple stakeholders from different nations and organisations
- CIV – MIL coordination and collaboration aspects reflected through involvement of private sector organisations
- **EDA + EUROCONTROL + NEASCOG collaborate on development of Education and Awareness Programme**

EUROPE^{FOR} AVIATION

Managing Cyber Security

T

Magnus Molbæk
SDM AF5 SWIM Expert

SWIM and Cyber Security

SWIM and the open internet

- SWIM uses the open internet for some applications
- Point-to-point security
 - Certificates insures identity of both parties and crypto
- Not all data should be treated equally
 - Different levels of security for different kinds of data
 - Operational data used to separate aircrafts is one thing
 - A-CDM information is another

Silver bullet solutions don't exist

- NewPens
 - NewPens is not defence in-depth - perimeter security is inadequate
 - Quality of Service demand is the only requirement that can justify NewPens
- PKI
 - PKI helps solve some identification and authentication problems, but does not solve authorization problems
 - PKI will not solve all information security challenges, PKI also brings new vulnerabilities by itself
- There are no (easy) techno fixes

“Just Culture” for Cybersecurity

- Long traditions of sharing vulnerabilities in flight safety.
- Today we are embarrassed if we have cybersecurity event
- But with SWIM all share the same risks
- Let's move towards “Just Culture” and share “incidents” before they become “accidents” to enable organisations to take appropriate actions to mitigate shared risks
- Covering all phases of development and operation

Regulations

Conclusions

- SWIM may bring new attack vectors, but most exist already in our existing infrastructure
- A thorough analysis of potential effects of new information sharing paradigms, like SWIM, in current and future air operations is crucial
- Promote “Just Culture” in Cybersecurity
- We remain 100% responsible for our own cyber security, however we can ease the task by exchanging cyber security related information

EUROPE^{FOR} AVIATION

**CYBERSECURITY:
TIME FOR CONCRETE ACTIONS,
TOGETHER**

Patrick MANA
EUROCONTROL - Cyber-Security Cell Manager

No State/Stakeholder left behind

ICAO/INNOVA-ACORNS

SDB

Cybersecurity services are effective if all stakeholders adopt them, not only some.
