

# EUROPEAN ATM ARCHITECTURE (EATMA)

## One Framework, One Plan

**Acronym:** PJ19 CI  
**CI number:** 731765  
**Call:** H2020-SESAR-2015-2  
**Duration:** 38 months  
**Estimated project cost:** €25,925,687.75

### WHAT IS EATMA?

EATMA stands for European Air Traffic Management Architecture and it is the common architecture framework for SESAR 2020. It is the sole means of integrating the ATM operational and technical content developments produced by SESAR 2020 Projects in a consistent and coherent way.

### WHY IS EATMA NEEDED?

EATMA is needed to put the changes in ATM into a holistic, multi-perspective and integrated picture. That picture provides a common reference for developing further solutions. It also feeds the European Master Plan with new proposals for changes. By building on EATMA, the ATM Master Plan and the European ATM Architecture become a single entity.

At the end of SESAR 2020 Wave 1, EATMA will support decision-making on deployments by highlighting possible deployment options and enumerating their benefits.

Together with the ATM Master Plan, EATMA helps give SESAR Partners One Plan and One Framework, providing One View of future ATM, both on the European and the international scene.

### EATM PORTAL: THE CONTENT

Content from all areas of the SESAR 2020 Programme can be found in EATMA, including:

#### Performance

- Overall performance targets and capabilities
- Key Performance Areas broken down into operational concepts and technical solutions

#### Operational

- Operational Concepts and capabilities needed to meet future demands for ATM

#### System, Services and Standards

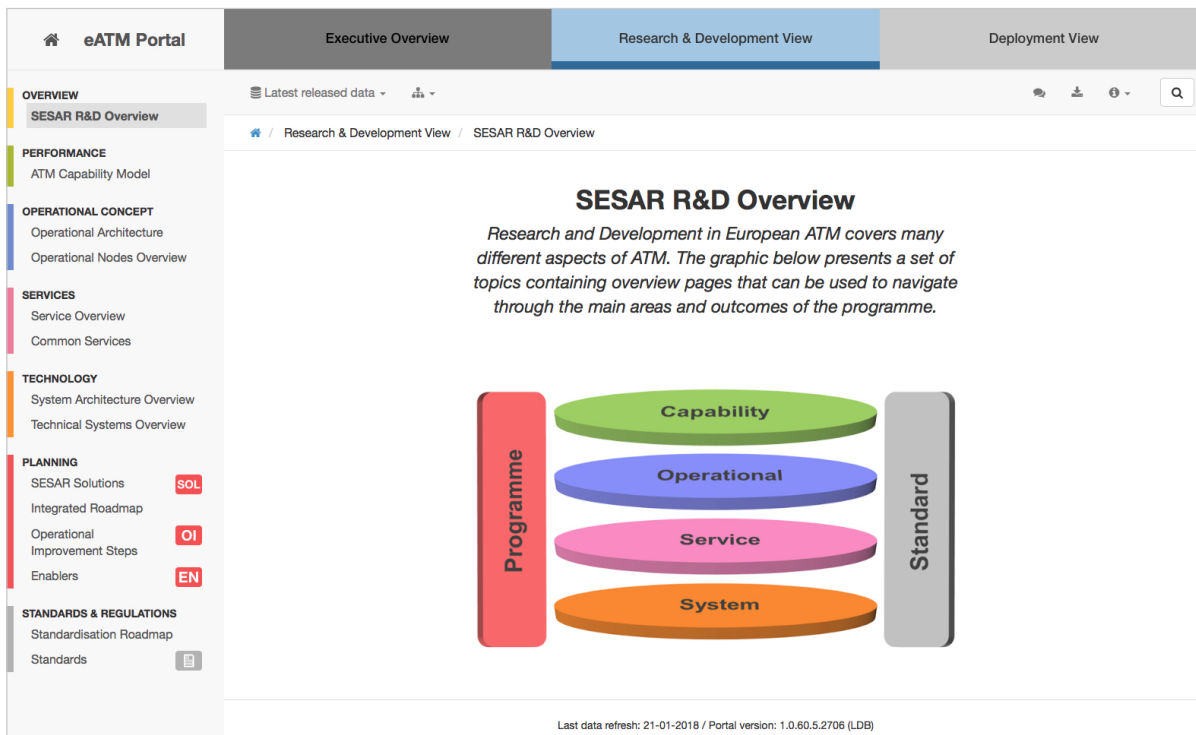

- Description of the System Architecture
- Services enabling exchanges of information between stakeholders
- Identification of needs for new Standards

#### Planning

- Operational Improvement Steps (OIs), Enablers (ENs), SESAR Solutions

## WHERE CAN YOU FIND EATMA ?

A synthesised version is available (for the general public) on the European ATM Portal (eATM Portal), together with the European ATM Master Plan.

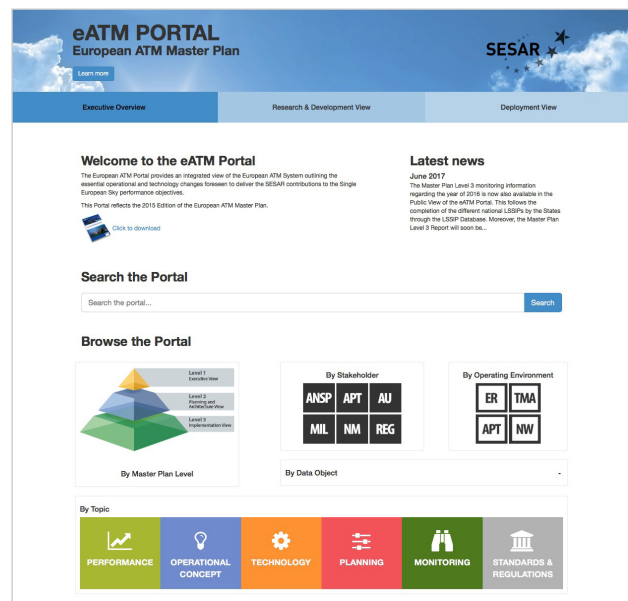

## eATM PORTAL: THE CONTENT

In addition to content on EATMA, the European ATM portal also provides information about:

- the European ATM Masterplan
- Deployment Scenarios
- ESSIP/LSSIP
- Monitoring of Stakeholder Implementation Objectives
