Key developments and collaborations: GALAAD's latest PMB Meetings

The past months have been a time of significant development for **GALAAD**. In October, **PMB#3** was held at ENAV's ACC facility in Rome, where GALAAD partners and SESAR representatives came together to review progress, discuss project milestones, and visit ENAV's National Test Facilities, gaining valuable insights into the infrastructure supporting our work. In November, **PMB#4** was held online, focusing on key updates and preparations for upcoming validations in 2025. These meetings reflect our strong collaboration, dedication, and the continued evolution of the GALAAD project.

Find out more about our meetings [here](#).

GALAAD at SESAR Innovation Day 2024: Shaping the Future of Air Traffic Management

GALAAD was excited to attend the **SESAR Innovation Day 2024** at the ENAV stand in Rome!

This event highlighted the **latest advancements in air traffic management and navigation technologies**.

GALAAD at SESAR 3 TBO: Enhancing Collaboration for Sustainable Aviation

GALAAD participated in the **SESAR 3 TBO Projects Coordination** event, strengthening collaboration across projects focused on **Trajectory Based Operations (TBO)**. This session was a great opportunity to share best practices, discuss program-level risks, and develop communication strategies with key stakeholders.

Focus on the Alliance for Zero-Emission Aviation: A Step Towards Sustainable Skies

The **Alliance for Zero-Emission Aviation (AZE)** brings together private and public entities aiming to prepare **hydrogen-powered** and **electric aircraft** for commercial service. SESAR 3 JU is a proud member of this initiative, collaborating with various stakeholders to support **climate-neutral air** transport solutions, accelerating the transition to **sustainable aviation**.
